

## PROFILE

Dynamic Data Science Engineer with a solid foundation in Mechanical Engineering. Expertise in leveraging data analysis, machine learning, and statistical modeling to drive informed decision-making and optimize processes. Proficient in programming languages such as Python and Java, as well as data visualization tools like Tableau and Power BI. Adept at applying engineering principles to solve complex problems, with a keen interest in integrating data-driven solutions into engineering applications. Proven ability to work collaboratively in cross-functional teams and communicate technical concepts effectively to diverse audiences.
